Handpicked Wines Sweden AB

Handpicked Wines, is a limited company, registred in Sweden, and fully licensed to import distribute and sell, wines and spirits, to both Systembolaget (government controlled monopoly stores for wine and spirits) and the HORECA. Handpicked Wines, are the product owner, and hold stocks for the Swedish market.

Handpicked Wines was established 2005 by Måns and Margareta Lundeberg and is today a well established wine importer in Sweden. With a good reputation Måns and Margareta has management experience from large international companies. Both in leading general management positions in the Nordic region. The team is also highly qualified in product expertise.

The company strategy is to import exciting quality wines of both old and new world and to cover both Systembolaget as well as the HORECA and wholesalers with own sales representatives. We work with Liquid Logistics in Sweden, as a service provider for primary logistics, warehousing, and secondary distribution to wholesalers and Systembolaget stores.

We find it extraordinary intresting to work with small and medium sized producers that are unique and special for the Swedish market.
